EDUCATION EVENT

SHAPING THE FUTURE OF EDUCATION

OVERVIEW

The Global Pandemic has taken its course in changing all ways of living for everyone around the world, and the education sector is one being challenged the most. With schools and universities closing down, everyone questions the sustainability, effectiveness, and impact of E-Learning as it replaces the traditional schooling system. While that is in question, Education Technology moved forward as the next million-dollar business. E-learning is no longer "just an option" for schooling and the surge in remote learning due to pandemic lockdown placed Ed-Tech in its right place of potential investment platform in the market.

KNOWLEDGE

The Abrahamic Business Circle only provide essential knowledge to our audience who are business leaders and top level executives from all business sectors. Throughout the event, attendees will hear from reputable speakers from industry experts in EdTech, Education, Investment and General Business. These will be delivered through keynote presentations and roundtable panel discussions.

OPPORTUNITY

Global Networking is one of the most important aspects of the event, in line with the organization's objective on gathering business leaders across the globe, we open our event floor for an essential networking opportunity for all our members and non-members. This potentially concludes relevant investment-investor relationships, acquire new clients, raise capital and find new business partners.

EXPOSURE

Attendees can effectively increase their company/ brand's exposure and visibility with a targeted audience through bespoke event partnership/ sponsorship opportunity. Each of our brand exposure option is customized to highlight a company brand throughout the event.

A Message from the Chairman

His Excellency Dr. Raphael Nagel

“Finally, the time is right to grow together what belongs together”

Our big dream is to create common market of the Middle East, with more than 400 million people living in it. I have always admired the policy of the UAE in terms of how open-minded they have been. The global members of the organization have all shared a vision of tolerance, prosperity and economic peace that align perfectly well with the UAE’s cosmopolitan and multicultural environment.

At The Abrahamic Business Circle, we see economic diplomacy as a tool to create long-term relationships between populations of the different countries and religions, we want to create a space where entrepreneurs and scientists from all over the globe can work together collaboratively. We want to create a technology campus here in Dubai, where people can live and work together.

Sincerely,

His Excellency Dr. Raphael Nagel
